

YOU'RE NOT A FOUNDER. YOU'RE A FIREFIGHTER.

1. Every day starts the same.

You wake up. You react.

2. A client emails. A task slips.

Something is on fire by 10am.

3. You call it being busy.

It's actually being trapped.

4. "I'll systemize when I scale."

That's why you can't scale.

5. Systems aren't what you do after.

They're what makes the after possible.

6. One repeatable process beats

ten talented Mondays.

7. Chaos doesn't scale. Process does.

Until you systemize, you're not running a business.

You're surviving one.
