

CREDENTIALS ≠ AUTHORITY.

1. You keep collecting certificates.

2. The clients still don't come.

3. Because clients don't hire your training.

They hire your point of view.

4. Credentials prove you studied.

Authority proves you decided.

5. The market rewards the chosen,

not the qualified.

6. Hiding behind "not ready yet"

is a slower way to stay broke.

7. Pick a position. Defend it loudly.

That's the credential that pays.

You don't need another course. You need a stance.
