

AUDIENCE ≠ CUSTOMERS.

1. You built an audience.
2. You forgot to build a customer.
3. They are not the same thing.
4. An audience consumes.

A customer pays.

5. Followers are trained by your content.

Buyers are trained by your offers.

6. If you never sell, they never see themselves as buyers.

7. Reach is rented attention.

Revenue is earned trust.

Sell something. Then sell again. Then again.
